A Global Platform for Learning, Discussion, and Clinical Insight

Oral and maxillofacial diseases demand more than knowledge — they require interpretation, judgment, and experience.

IODCPC brings together a global community of clinicians to learn through real clinical cases, expert insights, and shared perspectives.

Case-Based Learning

Clinical cases & Practice based lectures by experts.

Global Community

Participants and faculty from across the world

16 CDE Credits (additional for pre-conference)

Recognized academic certification for participation

30-Day Replay

Revisit sessions at your own pace

Multidisciplinary Approach

Integrated learning across key specialties

Pre-Conference Learning Tracks

Focused sessions for deeper clinical insight

Institutional Recognition & Awards

Recognizing excellence in participation and contribution

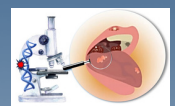

One pre-conference track included with full conference registration
